**WELCOMES YOU  
TO THE GREATER HORIZONS OF  
DIGITAL SOLUTIONS**

## CORPORATE MISSION

**DIGILUTION** is a full- service consulting firm founded in 1996 that specializes in business automation services, aiding in business automation operations and computer related services.

### MISSION

To provide solutions to our customers, especially in Davao that will help them embrace the digital revolution in this new millennium.

### VISION

To be the preferred strategic partner of our customers primarily in Davao, towards the achievement of their goals through digital solutions and technologies in competing in an emerging global market.

### MILESTONE

Since the inception of DIGILUTION INCORPORATED over twenty seven years ago, it has paved the way for Davao City businesses and individuals to engage in various technical innovations and automation processes, providing a co-active effect with their customers and shareholders for faster communications and solutions.

DIGILUTION INCORPORATED is still dedicated to provide its clients with both advanced ideas and methods in internet solutions.

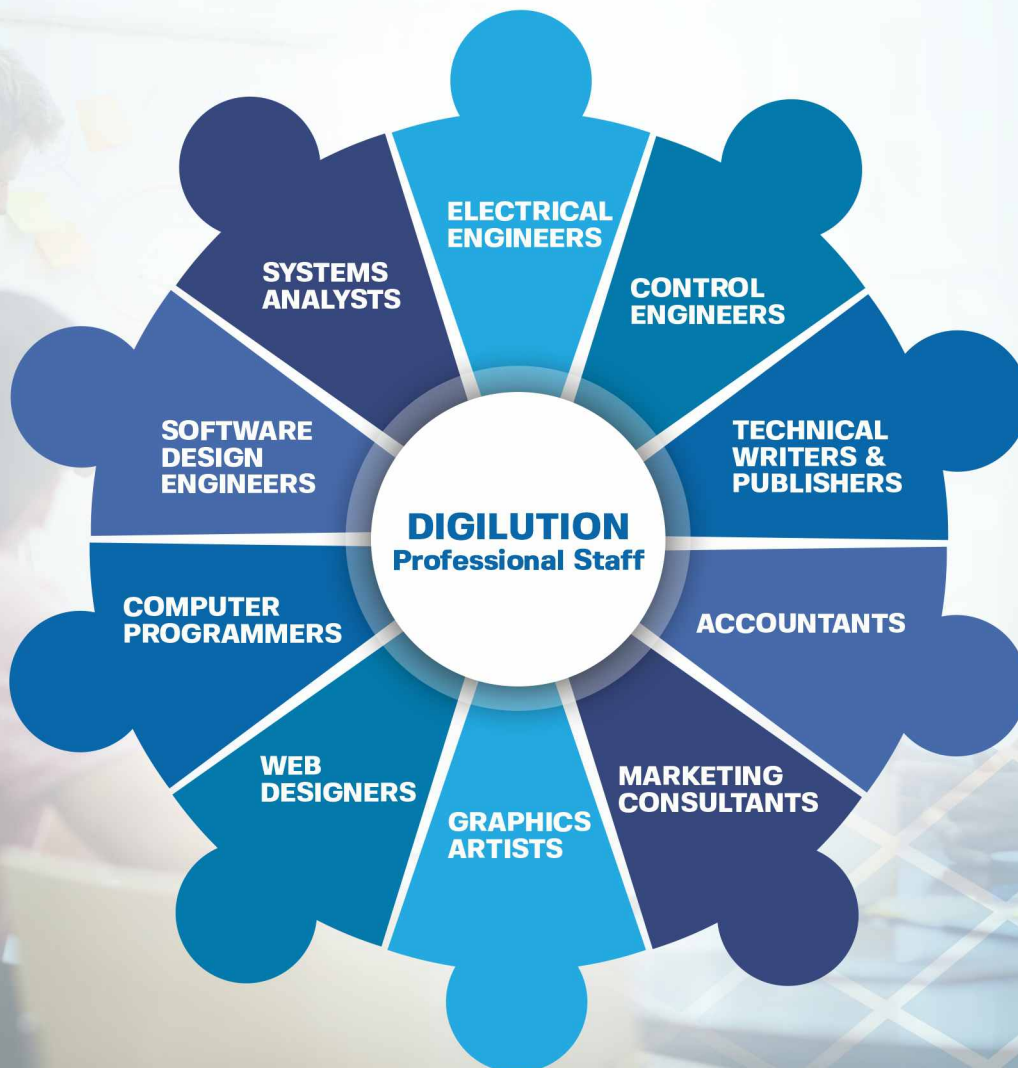

**DIGILUTION** has expanded its services in a variety of computing disciplines, and composed of different teams that work together to provide a synergetic solution designed to advance any business into this new era of technical innovation. Our multi-disciplinary team can effectively design, develop, and implement a comprehensive business automation solution.

**Digilution**  
is pleased to serve  
our **Dear Customers.**

WE WELCOME YOU  
TO THE **GREATER HORIZONS OF  
DIGITAL SOLUTIONS**

At **Digilution**, we assist you in every way by catering to your needs and delivering you our utmost Customer Service and Quality Products.

**Digilution**, not only offers quality products and services, but also has professional and welcoming staff to accommodate your queries.

# WHAT ARE DIGITAL SOLUTIONS?

## DIGITAL SOLUTION IS GLOBAL ACCESS

Reach a worldwide market, communicate with your customers from different nations in minutes, let your online store generate sales while you sleep. With an effective website, you can do all of these without leaving your desk. Digital solutions let you have the world at your fingertips.

## DIGITAL SOLUTION IS UP-TO-THE MINUTE INFORMATION

Manage your company creatively with cost effective business applications. From simple inventory to complex accounting systems, you'll have the data you need in a single click. With digital solutions, you can get the right information at the right time.

## DIGITAL SOLUTION IS REAL-TIME MONITORING & CONTROL

Control plant operations from a single room. Monitor activity on every valve, pipe, compressor, and pump, round-the-clock. Digital solutions let you create effective monitoring and supervisory automation applications.

## SOFTWARE DEVELOPMENT TEAM

- DIGILUTION BASIC ACCOUNTING
- DIGILUTION BASIC ACCOUNTING LITE
- CUSTOMIZED DATABASE SYSTEMS
- FINGERPRINT RECOGNITION SYSTEMS
- BARCODING SOLUTIONS
- CLOUD COMPUTING
- MACHINE LEARNING

### DIGILUTION'S SOFTWARE DEVELOPMENT TEAM

primarily caters to the development of software for businesses. We envision to help empower mostly the average Dabawenyo companies with digital solutions for the challenges that they face, especially in business. We want them to invest in automated solutions for everyday business tasks to get them ready for the digital age.

We develop customized systems for your special business needs. We can help you create solutions for your everyday challenges, making your business more productive and your people more effective. From customized inventory systems to specialized accounts monitoring systems, we can help you.

And in today's world of connected technologies, where cloud computing has moved to the center of many organization's strategies, our team of cloud computing experts can help transition your business to take advantage of cloud computing's superior technology.

## MANUFACTURING AUTOMATION TEAM

- DATA ACQUISITION
- PLANT-WIDE MONITORING
- MACHINE CONTROLS
- SCADA SYSTEMS
- ORDER/PRODUCT TRACKING
- INVENTORY/WAREHOUSE SYSTEMS
- MANAGEMENT EXECUTION SYSTEMS

### THE **MANUFACTURING AUTOMATION TEAM**

focuses on the design, development, and installation of custom process control applications. We provide a comprehensive set of plant floor automation services to enable even the smallest manufacturing company to be competitive in today's global market place.

### SERVICES OFFERED

- Design, development, and installation of programmable controller systems interfaced with various control devices and operator interface equipment.
- Supervisory process control using recipe management, order scheduling, and inventory systems.
- Real-time plant floor data collection utilizing database management systems which can be integrated with corporate MIS.
- Management Execution Systems and Manufacturing Operations Management to monitor and control manufacturing data like material track and trace and OEE
- Electrical drawings for control panels and field installation.

**Digilution** took part in helping DAPACOR rehabilitate their acquired corrugator line. The Digilution engineers refurbished the electrical and control systems, reprogrammed the machine controllers, and designed and developed new operator interface systems using the Ignition SCADA system.

Additionally, Digilution professionals have experienced working under mandated deadlines and have proven their ability to provide quality services under what sometimes are extraordinary time constraints.

# CREATIVE MEDIA TEAM

- **WEBPAGE DESIGN/DEVELOPMENT**
- **WEBSITE HOSTING**
- **LANDING PAGES**
- **PRODUCT ILLUSTRATION**
- **MULTIMEDIA PRESENTATION**
- **ONLINE MARKETING**
- **SOCIAL MEDIA MARKETING**
- **E-COMMERCE SOLUTIONS**

## WEBSITE DESIGN

Deliver your website content in dynamic fashion using the most advanced tools to provide the most appropriate feature for your company.

Digilution's Creative Media Team will help you build your site from design conceptualization and page design/lay-out, to site structure planning and the incorporation of your materials to the website.

If you're not yet ready for a full-fledged website, our team are also experts in Landing Pages which are simple but very effective for sales lead generation.

## WEBSITE HOSTING

House your website on our US-based server for lightning speed access and round-the-clock uptime.

## WEB APPLICATION DEVELOPMENT

We use the latest web technologies like WordPress to build your dynamic web pages that enable website visitors to interact with data and not just view pretty pictures. Then we make sure that your site is visible through effective search engine optimization (SEO) and search engine marketing (SEM), techniques that are crucial to the success of your business.

## MULTIMEDIA PRESENTATION

The easiest and most accurate way to conduct product presentations or illustrations and training manuals with enhanced graphics, animation, audio, and video. This is similar to Webpage Design but offers a higher level of interactivity.

## ONLINE MARKETING/E-COMMERCE

The easiest and most accurate way to conduct product presentations or illustrations and training manuals with enhanced graphics, animation, audio, and video. This is similar to Webpage Design but offers a higher level of interactivity.

Furthermore, we make use of social media platforms to build your brand, connect with your users, increase sales, and drive traffic to your website. Using social media marketing tools such as AI and chatbots, we can more effectively promote your company in this new information age.
